

The background is a complex, layered abstract composition. It features a variety of organic, flowing shapes in shades of grey, white, and light blue. Overlaid on these are numerous thin, dark, and golden-brown lines that swirl and curve across the canvas. A prominent, bright yellow-orange shape is visible on the left side, partially obscured by other layers. The overall effect is one of depth and movement, suggesting a sense of architectural or organic structure.

ART FOR INTERIOR DESIGN

## large format

Large format motifs can have a powerful impact on the perceived atmosphere of a space. Artworks may exude a cooling or warming effect, and their proper selection can create a feeling of expansive openness. This effect enables the designer to visually enlarge a small room and enhance that space by giving it a new look.

## commanding yet accessible

Modern, timeless art tends to be abstract, understated and elegant. The artwork creates a harmonious blend in streamlined, simplified interiors, as well as in luxurious premises.

Art elevates the space in an unassuming way, lending it a unique expression and presence.

Art may have a focusing, energizing or calming effect on the viewer.

Creating a perfect harmony with your interior design:  
Hues, proportion and crop of the motifs can be adapted  
to meet your design intent.

A wide aesthetic variety in available art spans classic,  
ornate, abstract, nature-based, dynamic, and linear  
streamlined design styles.

## abstract art solutions

Rica Belna created a number of art-series in varying design-styles and color-palettes. This wide selection of art allows the interior designer to create a unique feel by combining art with furnishings in their space.

## small and large

The showcased graphic artworks provide unique visual statements in small as well as large formats. Viewed from afar the art looks like a painting. Close up, delicate detail, lines and gradients of modern abstract creations are revealed.

Layers and levels within the art give each piece its depth. Large formats help to open up and visually expand a space.

150 abstract artworks of varying sizes grace a Sheraton Hotel in Jiading, China.

## related and yet distinct

Variations in hue, dynamic, crop and proportion.

An abundance of art-series, which beautifully work together, enable the interior designer to imbue each space with a special aesthetic. Rooms or floors retain a distinct look, while the entire project is connected via a comprehensive artistic theme.

## high resolution quality

Uniqueness reveals itself in the detail. At close proximity the artwork's high resolution shows delicate structure and details. Layers, lines and subtle grain create interest and prominence, or softly flow into each other.

## abstract expanse

Soft abstract movement, reminiscent of landscapes. Graphic artworks offer impactful solutions to enhance large surfaces in a balanced way. These artworks, full of depth, create a space expanding effect.

## moved landscape

Soft, flowing bands of color suggest landscapes: maybe a vast ocean, maybe big sky country.

These works convey a calming while rejuvenating feeling, thus offer visual solutions for a wide range of aesthetic or themed interior concepts.

## artistic creation of space

The focus of this wall-art creation is to achieve a space enlarging effect via large-format, photographic motifs.

Several of the art-series were specifically developed to create a calming, relaxing or a rejuvenating atmosphere. These works have proven a great fit with wellness resorts, hotels, in healthcare as well as workplace interior design.

## back-lit nature

Dreamland 2716

Mystic Forest 1291

Lighting and the selection of the right motif can create an especially beneficial visual impact. Backlit photographic art of the **good mood frames** series invite through their openness, brighten and bring cheer to the feel of a space. The viewer receives subliminal optical impressions which create new, joyful emotions, associated with that environment.

The bright and inviting artwork commands a space and achieves a positive enhancement of mood, especially during the darker winter months. Recreation of views to the outdoors is also crucial in interior sections of a building.

## Rica Belna

Rica Belna, born in Austria, has called Berlin, Germany her home since 1993. At a young age she developed an interest in artistic work and photographic media. As technological advances opened up new opportunities in artistic and creative work, DSLR and medium format cameras started to allow immediate checking of aesthetic look and quality of the creation, a crucial aspect in the creation of large-format art. Over time Rica developed special techniques which continue to give her graphic art a unique look and aesthetic.

Abstract color gradients and expansive motifs are particularly effective in large format visual applications and Rica Belna's art has been geared towards large-format since 2008. Some of the art prints to 25m wide (85 feet). These unique, large „worlds of color“ have contrast rich hues flow into each other, reminiscent of a water-filled vessel. Individual lines of color look like chalk or ink applied to a canvas. The artist Rica Belna loves working large. She applies this interest in artistic wall design, where photography as well as graphic art offer a wonderful opportunity to design for large spaces. Rica Belna's art visually opens, expands space and creates a welcoming atmosphere. Much of her work has been implemented in renowned hotels, wellness and corporate settings across the globe.
